

MANUEL SALTO

*Dr. Manuel Salto-Tellex is currently working as Assistant Professor in the National University of Singapore (NUS). Dr. Salto-Tellex is also a Senior Research Scientist at the Oncology Research Institute in NUS and Consultant Pathologist in the National University Hospital (Singapore).*

*Dr. Salto-Tellex attended Medical School at the Universities of Oviedo (Spain), Aachen (Germany) and Leiden (The Netherlands), partly supported by grants from the European Community. As a medical*

*student, Dr Salto-Tellex was awarded the Erasmus Prize of the European Community, as the jury considered that "...the standard of Manuel Salto's academic work has been consistently high, both in Spain and abroad. He was involved in research which is currently being published and initiated a joint research project between Aachen and Oviedo. Manuel Salto has made the most of Erasmus and has communicated his enthusiasm to many others."*

*Dr. Salto-Tellex specialized in Pathology in the University of Edinburgh (UK), received his MRCPATH in 1998. He sub-specialized in Gastrointestinal Pathology in St. Mark's and Northwick Park Hospitals in London (UK), and in Molecular Pathology at UPENN (USA). His clinical diagnostic work involves histopathology, cytopathology and molecular diagnosis.*

*Dr. Salto-Tellex is author of more than 40 papers in some of the most important journals in the area of Pathology and Translational Research. He is a regular reviewer for some prestigious journals. He will soon be co-author of the next edition of Talbot and Price's Biopsy Pathology in Colorectal Disease (ISBN 0-412-*

*22160-8. Dr. Salto-Tellex's research interest include the search of novel biomarkers in the diagnosis and prognostication of cancer, the validation of molecular testing for the routine diagnostic practice, and the development and annotation of physiopathological animal models of disease.*

*Dr Salto-Tellex has a personal interest in literature, traveling and foreign languages. His career has allowed him to develop a professional and personal life in academic institutions of 3 different continents, and is looking forward to continue this multi-national clinical and translational research endeavour in other environments. Indeed, the membership in the Academic Council of the International Research Promotion Council would be an ideal framework to expand the formulation and implementation of his research for the third world countries.*

*Dr. Manuel Salto-Tellex has been selected by the World Scientist Forum for "Eminent Scientist of the Year 2005" International Award from Singapore in the field of Pathology based on his academic excellence, research contributions and expertise in the field of Pathology, especially in Gastrointestinal and Oncopathology.*
