

EMINENT SCIENTIST OF THE YEAR 2007 NORTH AMERICA

Dr. W. Warren Suh

Dr. Wonsuk Warren Suh, MD, MPH, a leading clinician and a reputed Radiation Oncologist is currently an attending faculty physician in the Department of Radiation Oncology with primary clinical responsibilities in genitourinary and gastrointestinal malignancies at the Dana Farber Cancer Institute and Brigham and Women's Hospital, major teaching affiliates of the Harvard Medical School, located in Boston, Massachusetts, USA.

Dr. Suh completed his graduate studies at the University of Chicago, Pritzker School of Medicine and the Harvard University, School of Public Health. His research interests lie within the field of health services outcomes research; peer-reviewed journal publications span the different clinical realms of prostate and breast cancer radiotherapy, interventional cardiology, and post-stroke care. He serves on several editorial board and national committees: Hematology Oncology News & Issues Editorial Advisory Board, the American Society of Therapeutic Radiation Oncology (ASTRO) Health Services Outcomes Research Committee, and American Society of Clinical Oncology (ASCO) New Technology

Assessment Committee - PET scan.

Over the years, Dr. Suh has garnered numerous awards and honors including the recent election to the 2004 Who's Who in Medicine and Healthcare and 2005 Who's Who in America. Dr. Suh is an Instructor in Radiation Oncology, Harvard Medical School since July 2004 and Attending Physician at the Brigham and Women's Hospital and Dana-Farber Cancer Institute since July 2004.

Dr. Suh is a member of various Professional Societies including American Society of Radiology, Society for Medical Decision-Making, American Society of Clinical Oncology, American Society of Therapeutic Radiology, Radiological Society of North America, American Society of Internal Medicine, American College of Physicians and the American Medical Association.

Dr. Suh has been selected by the World Scientists Forum for "Eminent Scientist of the Year 2007" International Award from USA in the field of Radiation Oncology and Cancer Research for his research contributions and clinical expertise in Radiotherapy and Clinical Oncology.
